Sources

- Select what you would like to share on the displays below.
- If you would like to see Phoenix students, select “Video Conference 1.” We usually display this on the “Right Display-VTC Primary” destination.

Global buttons

- Lights
- Annotation
- Conference Controls
- Audio

Left Display Right Display Right Image(capture) Left Image
PC VTC Primary PC PC

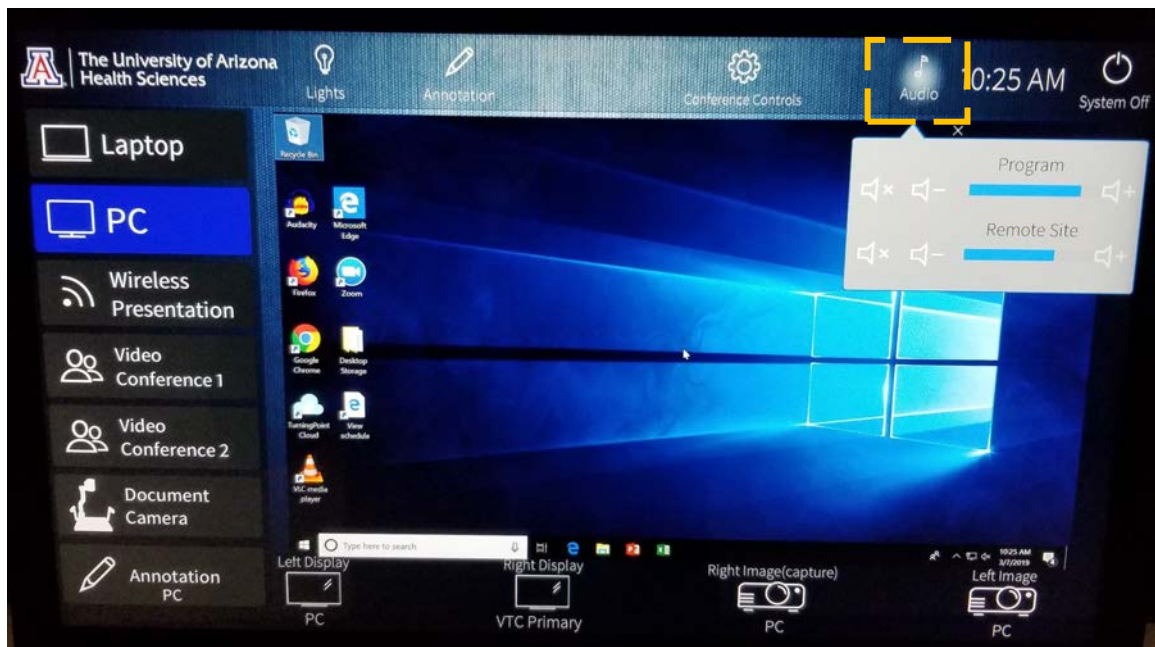

Destinations

- Select a source then touch each display to share.
- What is displayed on the “Right Image (capture)” projector is what Phoenix sees & what is recorded.

Home Screen (cont.)

- Lights - Adjust Lighting in room

Audio - Adjust the volume

- Program- Our PC audio
- Remote Site- Audio from Phoenix

Annotation

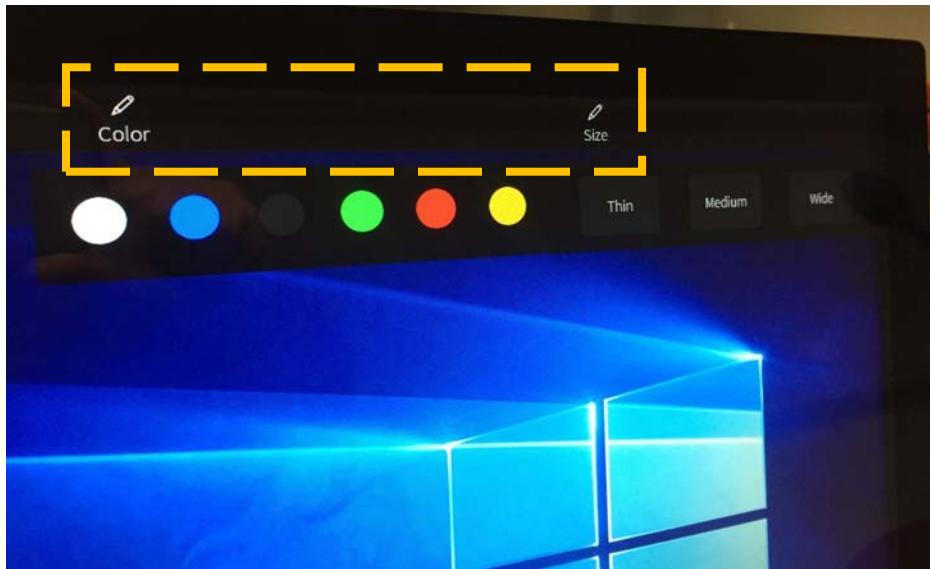

- Source - Once you have selected annotation on the home screen, you can choose the source (Desktop, Wireless, Doc Cam, PC, or None).
- Clear - This will clear all of your selections and annotations.
- Back - This will take you back to the home screen.

Here, PC was selected as a source.

Annotation (cont.)

- Select Color and the Size for your annotations.

- Use your finger to make annotations.

Video Conference Calls (“Conference Controls” button on the home screen)

The screenshot shows a video conference control interface. At the top left is the University of Arizona Health Sciences logo. The top right shows 'Audio' and '10:21 AM'. A 'Back' button is in the top center. Below the top bar are 'Single Display' and 'Dual Display' buttons. A central 'Home' button is highlighted with a red '1'. To the left of 'Home' are 'Selfview' (highlighted with a red '6'), 'Maximize' (highlighted with a red '5'), 'Default', 'PIP Location', and 'Send Content' (highlighted with a red '4'). To the right of 'Home' are 'Back' and 'Refresh Phonebook' buttons. A list of rooms is displayed in the center, including E112, E113, E115, HSEB B302, HSEB B402, HSEB502P (P16), Pharmacy Phx (3374), Room 1266P (P5), Room 1353P (P3), Room 1378P (P4), Room 2206P (P1), Room 2208P (P2), Room A501P (P8), and Room A602P (P7). A 'Directory home' button is above the room list. A 'Directory Display' panel is on the right, showing 'HSEB B402 SX80' and buttons for 'End Call 1', 'Hold Call 1', 'End Call 2', 'Hold Call 2', 'End Call 3', and 'Hold Call 3'. An 'End' button is at the top right of this panel. A red '3' is next to the 'End Call 1' button. A 'Send Content' button is at the bottom left. A 'Select Layout' button is at the bottom center.

Press to see yourself. This is what Phoenix is seeing.

Press to shrink your shared content to see connecting site in full screen.

Directory Display. Select room to dial and connect.

End

Press to send content to connecting site from the in-room computer or other device (i.e. laptop, doc cam, etc.)

This is the connecting site that was dialed. In this example it is B402 in Phoenix. To end the call hit “End” or “End Call 1.”

Video Conference Calls

1. If you do not see the class you would like to connect to in the Directory Display box press this “Home” button and choose the Phoenix directory.
2. In this Directory Display box, press the desired room to dial and connect.
3. This is the connecting site that was dialed. In this example it is B402 in Phoenix. To end the call hit “End” or “End Call 1.”
4. Once connected, press the “Send Content” button to share your content. If you have “Video Conference 1” displayed on a destination, you will see when your content is shared.
5. Press “Minimize” to shrink your shared content so that you may see your connecting site in full screen.
6. Press the “Selfview” button to see yourself. This is what Phoenix is seeing.

Other Notes:

- All of these notes and examples refer to the B109 controls, there are minor differences in B111. All of these examples will work in both rooms.
- Phoenix cannot control our Tucson rooms and vice versa.
- Make sure Barb and Natalie know when the instructors will teach from an alternate location, so someone will be in the room to help with IT on the remote site.
